WHO YOU'RE WORKING WITH

**You're not hiring an agency.
You're hiring a partner.**

Isaiah Wright

FOUNDER · ONE VISION MARKETING AGENCY

I built One Vision because I saw too many small businesses getting sold expensive services from agencies that didn't understand them — or worse, didn't care about the outcome. That ends here.

Every OneVision client gets my direct attention: strategy calls, hands-on campaign management, and honest advice. You're not another logo on a client list. You're a partner I'm invested in growing with.

 AI-Powered Execution

Stop juggling. Start growing.

Most small businesses waste \$500-\$2,000 a month on scattered tools and freelancers that don't work together. OneVision consolidates it all.

⚠ Without OneVision

- ✗ Paying \$50-\$300/mo for CRM, \$30-\$150 for email, \$100+ for content, \$50+ for scheduling
- ✗ Different agencies pointing fingers when something breaks
- ✗ Marketing that "posts" but doesn't actually generate leads
- ✗ No system for capturing leads or following up automatically
- ✗ Hours wasted every week logging into 8 different tools
- ✗ No strategy — just random posts hoping something works
- ✗ You're spending time on marketing instead of running your business

✓ With OneVision

- ✓ ONE system. ONE bill. ONE partner accountable for results
- ✓ Custom CRM, content, ads, strategy — all in one place

- ✓ AI-powered systems that follow up every lead automatically
 - ✓ Weekly strategy calls with Isaiah — no account managers
 - ✓ Data-driven decisions based on live performance metrics
 - ✓ Marketing that actually converts — not just "engagement"
 - ✓ You focus on running your business. We handle everything else
